

New Business- Item 1.b., John Mongioi

- 1) What is the fine for possessing a fish out of the season or time period for taking that species fish? The fine amount is \$331.00 which includes mandatory court costs. The charge would be considered a 2nd degree misdemeanor.
- 2) What is the fine for possessing a fish that is in violation of the size limit? The fine amount is \$331.00.
- 3) Is the fine for each offence or for each fish? Technically the fine could be for each fish. According to Dep. Keck, most deputies site for each offense, not each fish, unless the violation is extreme in numbers.
- 4) Are there court costs which are added to the fine automatically or is the court cost only added if you appear in court? The court costs are added to both the payable amount and in addition to any fine assessment in court.
- 5) Is a court appearance mandatory with these violations or can the fine be paid without a court appearance? An appearance in court is not mandatory. The fine may be paid without a court appearance.

Regards,
