

Brevard County Comprehensive Maritime Management Master Plan (CM3P) Plan Elements & Goals

I. Waterway Environments and Ecosystems

- A. GOAL: Improve the quality of interior waterways (embayments)
- B. GOAL: Manage waterways to safeguard their ecosystems
- C. GOAL: Manage land uses to safeguard waterway environments and ecosystems
- D. GOAL: Foster awareness and stewardship of coastal environments and ecosystems

II. Waterfront and Waterway

- A. GOAL: Engage all relevant planning and regulatory agencies to find solutions to access issues in a regional perspective
- B. GOAL: Increase ramp, marina, dry stack, and managed mooring field options
- C. GOAL: Preserve and increase waterfront destination opportunities accessible by land and by water (e.g., parks, piers, restaurants, and “resort-type” destination)
- D. GOAL: Retain working waterfronts, including commercial fishing outlets, boatyards, and marinas

III. Navigation

- A. GOAL: Promote Safe Navigation

IV. Boating Safety

- A. GOAL: Safe and Proper Operation

V. Intergovernmental /Agency Coordination

- A. GOAL: Coordinate Planning Efforts with Local, Regional, and State Governments

VI. Science-Based Management

- A. GOAL: Maritime management actions should be data driven
- B. GOAL: Encourage community based “peer review” of science-based rules and regulations
