

BREVARD *County*
BOARD OF COUNTY COMMISSIONERS

FLORIDA'S SPACE COAST

Brevard Marine Advisory Council

July 15, 2010

Florida Fish and Wildlife Conservation Commission
Florida Boating Improvement Program
Attn: Mr. Tim Woody
620 South Meridian Street
Tallahassee, FL 32399-1600

Dear Mr. Woody:

The Brevard Marine Advisory Council would like to take this opportunity to acknowledge our support for the City of Titusville Municipal Marina's application to the Florida Boating Improvement Program for Phase II Construction of the City of Titusville's Mooring Field.

The proposed project will provide a clearly marked and secure public access mooring area, protect submerged aquatic resources, and prompt mariners to stop in and contribute to the local economy. The Marine Advisory Council has taken the lead in moving boating and waterways issues to the forefront as a County priority. We are currently overseeing the development of the Brevard County Comprehensive Maritime Management Master Plan (CM3P). Development of this plan will work to establish an equitable balance between the environmental, recreational and economic needs of Brevard's waterways. Completion of the City of Titusville's proposed mooring field is a high priority item in the CM3P and has been a priority for the Brevard Marine Advisory Council since the project's inception.

Thank you again for providing us the opportunity to lend our support for this essential project. Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Cunningham".

Mike Cunningham, Chairman
Brevard County Marine Advisory Council
