

Third Annual Space Coast Boating and Waterfest May 2011

Space Coast Boating and Waterfest is held during the entire month of May. The goal of waterfest is to provide a range of water-based events to promote and celebrate Brevard County's waterways and its diversity of water-based activities thereby increasing residents' and visitors' knowledge of the economic, ecological, educational, and recreational opportunities the region provides. There are going to be many activities happening during the month that include fishing tournaments, educational activities, and an entire week dedicated to safe boating. Safe Boating Week is from May 21st-27th, with this year's campaign focusing on life jackets. Below is a list of some of the activities that are planned during the month. Check out <http://natres.brevardcounty.us/bmac/BoatingWeek.cfm> for a complete schedule and links to more information.
